

I'm Finding A Way

words and music
Vin Distefano

Now, I don't know how this happened. What happened to you and me?

I only know for certain, that you belong back here with ya see,

This time and space that's between us, we've lived with for all of these years.

Denying though deep inside us, the meaning's been very clear...

Chorus:

I'm Finding A Way, I'll get to you (Till I get to you)

I'm Finding A Way, I've got to try

I'm Finding A Way, I've got to find a way to get to you

I'm Finding ..., it's only a matter of time

(repeat)

We know our friendship will last forever, and now this feeling we have inside can't be subdued.

I can't stop thinking about, thinking of in this new light.

Got tot find a way to see you, to hold you and squeeze you tight.

Why didn't we find out sooner, that our friendship has grown to love.

Now let's do what we must, and I'll meet you half way. You're all that I am thinking of.

Chorus

(break)

Girl, why didn't we find out sooner? Were we afraid to let it show?

Now I'm hopping on board to get to you, I love you and I want you to know.

Chorus
