

No One
words and music
Vin Distefano

I wish you'd think it over now, the things we said tonite.

I just can't turn and leave you here and walk out of your life.

Chorus

I know that we feel the same, when you're here with me,

No One came be the things that you mean to me.

Please try to understand, don't feel that it's wrong..

Let your heart lead the way for you, then follow along.

(Chorus)

So if you understand...(please give me a sign).

(Let's be like we were before)...Just give us some time.

Are you sorry when you told me what you said, when you said,

You can't decide you're confused?

You could have walked turned and walked away, but no, you stayed instead.

You never said we were thru...

I wish you'd think it over now, the things we said tonite.

I just can't turn and leave you here, and walk out of your life.

Chorus

No One, No One can Be....
